PROFESSIONAL SUMMARY

Results-driven Junior Software Developer with hands-on experience in web development, software testing, and technical support. Skilled in Next.js, React.js, Node.js, REST APIs, JWT authentication, and PostgreSQL. Adept at building responsive and scalable web applications, debugging technical issues, and collaborating with cross-functional teams to deliver efficient digital solutions.

EXPERIENCE

Triptales Commercials Pvt. Ltd – Bhubaneswar

Junior Software Developer | Aug 2024 – Present

- Developed and maintained web applications for DIALURBAN's digital services platform.
- Built scalable features using Next.js, React.js, Node.js, REST APIs, JWT authentication, and PostgreSQL.
- Improved UI/UX by creating responsive designs and optimizing application performance.
- Collaborated with designers and QA teams to enhance application stability and user experience.

Software Testing & Technical Support Intern | May 2024 – Aug 2024

- Conducted performance and load testing with Apache JMeter to ensure application efficiency.
- Assisted in debugging and resolving technical issues, ensuring smooth product deployment.
- Gained practical exposure to React, Bootstrap, and VS Code, improving overall technical expertise.

PROJECTS

- Job Portal (Personal Project): Designed and developed a full-stack job portal using Next.js, REST APIs, JWT authentication, and PostgreSQL. Implemented secure user authentication, job posting, job search, and filtering features.
- Matrimony Management System (Group Project): Collaborated with a team to develop a matrimony platform using Next.js, REST APIs, JWT authentication, and PostgreSQL. Contributed to frontend development, API integration, and testing.
- Property Management System (Group Project): Worked in a team to build a property

listing and management system using Next.js, REST APIs, JWT authentication, and PostgreSQL. Assisted in UI development and backend integration.

- Doctor Appointment Management System (DAMS) – Group project for efficient appointment scheduling and patient management.
- Blood Bank Management System – Designed a system for donor registration and blood availability tracking.
- Static Web Development (Internship) – Built responsive static pages replicating client designs using React & Bootstrap.
